**2. CORE DESCRIPTION**

The Missouri State Water Patrol's mission is to protect and serve the public through law enforcement and education so that citizens and visitors can safely use and enjoy the waters of the state. Water Patrol officers patrol approximately 273,000 acres of major lakes, and the Missouri and Mississippi rivers with an aggregate shoreline in excess of 8,000 miles. This vast amount of water does not include the lesser tributaries of the Missouri and Mississippi rivers, including, but not limited to, the Osage, Meramec, Gasconade, Grand, Current and other rivers within the State. Water Patrol officers respond to tens of thousands of calls for service, both directed and self-initiated, each year. In 2004 there were 336,185 boats registered in Missouri, in May of 2005 that number had increased to 339,542. In an attempt to reduce boating accidents and related fatalities, the Water Patrol provides water safety education programs to schools statewide as well as adult boating education programs. In addition to law enforcement, the Water Patrol also provides many other critical services. Among these are: underwater rescue and recovery operations; providing safety exhibits; inspecting safety equipment in boats; investigating water related accidents; investigating complaints and criminal activities; assisting other law enforcement departments; permitting and patrolling regattas, races, fishing tournaments, skiing exhibitions, and other water related events; administering first aid; authorizing placement of navigational aids and regulatory markers; investigating navigational obstructions; and homeland security details.

**3. PROGRAM LISTING (list programs included in this core funding)**

Law Enforcement  
 Administration and Support  
 Criminal Investigations  
 Safety Education and Crime Prevention  
 Underwater Recovery Team (URT)  
 Navigational Aids & Regulatory Markers and Regattas

## PROGRAM DESCRIPTION

**Department of Public Safety****Program Name Missouri State Water Patrol's Law Enforcement****Program is found in the following core budget(s): Law Enforcement and Boating Safety****1. What does this program do?**

Water Patrol officers patrol approximately 273,000 acres of major lakes, and the Missouri and Mississippi rivers with an aggregate shoreline in excess of 8,000 miles. This vast amount of water does not include the lesser tributaries of the Missouri and Mississippi rivers, including, but not limited to, the Osage, Meramec, Gasconade, Grand, Current and other rivers within the State. Water Patrol officers respond to tens of thousands of calls for service, both directed and self-initiated, each year.

The first responsibility of the Water Patrol is to protect the citizens of the State of Missouri and to enforce the laws of the state. The laws contained within Chapter 306 RSMo. were established to regulate the registration, titling, and equipment requirements on watercraft, as well as their operation. Traffic enforcement on our waterways is very similar to traffic enforcement on our highways. Moving violations such as operating a boat while intoxicated, reckless operation, and speed limits are strictly enforced. While the Water Patrol has many responsibilities, there is none more important than protecting and serving the citizens of the state.

The Missouri State Water Patrol is also charged with investigating boating accidents and reporting watercraft accident information to the United States Coast Guard. Water Patrol officers are responsible for the recovery of watercraft accident and drowning victims. Only the Water Patrol is available and has the equipment to perform this service on a statewide basis. All officers are highly trained in body recovery techniques. Disposal of evidence (guns, vehicles, etc.) in our waterways is a common occurrence.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 306 RSMo

**3. Are there federal matching requirements? If yes, please explain.**

Each of the 50 states and Puerto Rico receive funds to assist in boating safety. This funding comes from what is known as the Wallop-Breaux fund. The total number of dollars that are made available to the states is usually around \$55-60 million. In Federal FY-2003, \$59 million was made available to the states. The Individual State allocations are determined as follows:

- 1) One-third shall be allocated equally each fiscal year among eligible States.
  - 2) One-third shall be allocated among eligible States that maintain a State vessel numbering system and a marine casualty reporting system so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the number of vessels numbered in that State bears to the number of vessels numbered in all eligible States.
  - 3) One-third shall be allocated so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the amount of State amounts expended by the State (our GR funds) for their recreational boating safety program during the prior fiscal year bears to the total State amounts expended during that fiscal year by all eligible States for State Recreational boating safety programs.
- (In other words, if the state that spends the most on boating safety gets \$51 and the state that spends the least gets \$1 and we are ranked as 13th in GR spending for that year, our portion would be \$38.)

### Department of Public Safety

**Program Name** Missouri State Water Patrol's Administration and Support

**Program is found in the following core budget(s):** Law Enforcement and Boating Safety

#### 1. What does this program do?

The Administrative and Support Services divisions support all of the functions of the Water Patrol. The Administrative and Support Services divisions consist of 31 FTE. Included in these divisions are the:

**Communications Section** - This section dispatches all officers statewide from the Jefferson City communications center.

**Personnel and Training Section** - This section is responsible for keeping all officers P.O.S.T. certified, including training in the areas of firearms, defensive tactics, criminal law and other related areas of instruction. Additionally, this section is responsible for payroll services.

**Fiscal Services** - The fiscal staff is responsible for processing payment documents, maintaining financial records, budgeting, and similar services.

**Support Services** - This section is responsible for all maintenance and repair of transportation equipment, warehousing, supply services, budgeting, purchasing and similar services.

In addition to these areas, the administrative staff review all officer generated reports, maintain records, maintain navigational aids records, maintain regatta records, and provide essential services, such as, scheduling of safety education programs, providing public information and the coordination of homeland security details for the MWP.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 306 RSMo

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, the MSWP's federal funding is determined as follows:

Each of the 50 states and Puerto Rico receive funds to assist in boating safety. This funding comes from what is known as the Wallop-Breaux fund. The total number of dollars that are made available to the states is usually around \$55-60 million. In Federal FY-2003, \$59 million was made available to the states. The individual state allocations are determined as follows:

1) One-third shall be allocated equally each fiscal year among eligible States.

2) One-third shall be allocated among eligible States that maintain a State vessel numbering system and a marine casualty reporting system so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the number of vessels numbered in that State bears to the number of vessels numbered in all eligible States.

3) One-third shall be allocated so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the amount of State amounts expended by the State (our GR funds) for their recreational boating safety program during the prior fiscal year bears to the total State amounts expended during that fiscal year by all eligible States for State Recreational boating safety programs.

(In other words, if the state that spends the most on boating safety gets \$51 and the state that spends the least gets \$1 and we are ranked as 13th in GR spending for that year, our portion would be \$38.)

Criminal Investigations is a sub-program of Law Enforcement. The Water Patrol investigates all types of criminal activity including homicide, burglary, stealing, and other similar crimes. Incidents of family violence and abuse are investigated as well as all violations involving illegal use of drugs and alcohol within our jurisdiction, including drug production and trafficking. Water Patrol officers also participate in drug and crime task forces throughout the state. The Water Patrol also promotes crime prevention through various initiatives. In one such initiative we have developed a theft prevention program in conjunction with local agencies in an effort to curb the growing problem of theft of watercraft and marine equipment.

The criminal investigations unit also audits marine registrations through the Department of Revenue on suspicious boats and motors and audits marine dealers to assure compliance with state law. Criminal Investigators are trained to identify stolen watercraft, motors and trailers by locating and examining hidden manufacturers' serial numbers.

### Department of Public Safety

**Program Name** Missouri State Water Patrol's Safety Education and Crime Prevention

**Program is found in the following core budget(s):** Law Enforcement and Boating Safety

#### 1. What does this program do?

For over 25 years, Missouri State Water Patrol officers have conducted boating and water safety education classes in the school systems throughout the state. These educational programs have had a positive effect and are very popular with students and parents. Over 20,000 students annually receive the course, which is approved by the United States Coast Guard and certified by NASBLA (National Association of State Boating Law Administrators).

Due to the passage of Senate Bill 1 of 2003, beginning January 1, 2005, every person born after January 1, 1984, who operates a vessel on Missouri lakes shall possess, on the vessel, a boating safety identification card issued by the Missouri State Water Patrol (along with a valid photo I.D.). Beginning January 1, 2006, every NON-RESIDENT boat operator born after January 1, 1984, shall possess a boating safety certification card from their home state, United States Coast Guard Auxiliary, U.S. Power Squadron, or the Missouri State Water Patrol.

Due to the passage of this bill, we are anticipating an increase in the number of students taking the course. We are also now scheduling adult boater education courses throughout the state.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

306.127 RSMo

#### 3. Are there federal matching requirements? If yes, please explain.

Each of the 50 states and Puerto Rico receive funds to assist in boating safety. This funding comes from what is known as the Wallop-Breaux fund. The total number of dollars that are made available to the states is usually around \$55-60 million. In Federal FY-2003, \$59 million was made available to the states. The Individual State allocations are determined as follows:

- 1) One-third shall be allocated equally each fiscal year among eligible States.
- 2) One-third shall be allocated among eligible States that maintain a State vessel numbering system and a marine casualty reporting system so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the number of vessels numbered in that State bears to the number of vessels numbered in all eligible States.
- 3) One-third shall be allocated so that the amount allocated each fiscal year to each eligible State will be in the same ratio as the amount of State amounts expended by the State (our GR funds) for their recreational boating safety program during the prior fiscal year bears to the total State amounts expended during that fiscal year by all eligible States for State Recreational boating safety programs.  
(In other words, if the state that spends the most on boating safety gets \$51 and the state that spends the least gets \$1 and we are ranked as 13th in GR spending for that year, our portion would be \$38.)

#### 4. Is this a federally mandated program? If yes, please explain.

Yes, in order to receive federal funding from the Wallop-Breaux fund, each state must administer a NASBLA approved boater education program.

### Program Name Missouri State Water Patrol's Underwater Recovery Team (URT)

Program is found in the following core budget(s): Law Enforcement and Boating Safety

#### 1. What does this program do?

The Dive Team is a sub-program of Law Enforcement.

The need for a professional dive team capable of providing a wide array of services, such as, body recovery and criminal evidence recovery has long been recognized by the MSWP and the Missouri legislature. The MSWP Underwater Recovery Team (URT) has been in existence since 1979. The team consists of 10 members, each of whom has attained a minimum of master diver status and is specifically trained in the proper procedures that maintain evidence validity, chain of custody and the ability to provide appropriate court testimony in criminal cases. Over the years, the URT has made hundreds of recoveries and other specialized dives for public benefit. Dive missions have included water main repair in flooded cities, repairs of leaking levees, body recoveries, murder weapon recoveries and many others. While there is a minimal cost to providing this service to the State, the resulting costs of discontinuing the program would increase our costs of operation, due to less efficient and effective means of locating and recovering drowning victims and other items. Additionally, evidence that is essential for criminal prosecution may never be located without the technology the Dive Team employs.

### Department of Public Safety

**Program Name** Missouri State Water Patrol's Navigational Aids & Regulatory Markers and Regattas

**Program is found in the following core budget(s):** Law Enforcement and Boating Safety

#### 1. What does this program do?

##### Navigational Aids & Regulatory Markers

This program is imperative in recognizing and marking dangerous and/or congested areas on the states waterways and regulating the movement of traffic in these areas. Most navigational aids are designed to identify lanes of navigation or "channels" for vessel traffic. Regulatory markers are designed to limit the speed or usage of an area in which a vessel can operate. Failure to comply with navigational aids or regulatory markers can lead to property damage and/or life threatening situations. Patrol officers are required to inspect nearly 5,000 buoys and regulatory markers annually to assure compliance with required markings, placements and serviceability.

##### Regattas

Each year, hundreds of motorboat and watercraft races, marine parades, tournaments, and other exhibitions occur on the waters of the state. In order to assure the safety of participants and observers, the Missouri State Water Patrol has been authorized by 306.130 RSMo to regulate all of these events. Authorization for any of these events may only be made by the Missouri State Water Patrol or the United State Coast Guard.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 306 RSMo

#### 3. Are there federal matching requirements? If yes, please explain.

Yes, the MSWP's federal funding is determined as follows:

Each of the 50 states and Puerto Rico receive funds to assist in boating safety. This funding comes from what is known as the Wallop-Breaux fund. The total number of dollars that are made available to the states is usually around \$55-60 million. In Federal FY-2003, \$59 million was made available to the states. This core request is for funding to ensure compliance with the liquor and tobacco laws, issuance of over 26,000 licenses annually, collection of over \$32 million dollars in revenue annually, providing information and services to the citizens of Missouri and alcohol beverage industry, and thereby to allow the industry to legally conduct business in the state of Missouri, while citizens are assured of receiving a safe product in a responsible manner. A major focus continues to be decreasing the illegal consumption of alcoholic beverages and youth access to tobacco products; therefore, decreasing the rate of alcohol and drug related injuries and deaths and thereby reducing the number of youths who take up smoking.

The Division's General Revenue budget is less than (8%) eight percent of the \$32 million collections annually.

Response to changing situations is sometimes difficult when we have to manage within fixed budgets that have not experienced real growth in several years. In addition, with the level of core reductions, budgets are tight and flexibility is needed to continue providing the best possible service. The flexibility assists to ensure that the most efficient and effective treatment services are provided.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name - Enforcement

Program is found in the following core budget(s): Alcohol and Tobacco Control

## 1. What does this program do?

The Division of Alcohol and Tobacco Control maintains a highly qualified, well-trained staff consisting of thirty-five Agents and Special Agents, two District Supervisors, Tobacco Program Manager, Chief of Enforcement, Deputy Supervisor and State Supervisor who are charged with enforcement of the Alcohol and Tobacco Control laws and regulations relating to the manufacture, distribution and sale of alcoholic beverages. Enforcement duties include background licensing investigations, inspections, Server Training education, Badges in Business, Party Patrol, Tobacco Compliance Checks and undercover investigations. Based on violation reports, the Supervisor of Alcohol and Tobacco Control takes disciplinary action against licensees who are found in violation of the Alcohol and Tobacco Control laws and regulations. The Division gained the responsibility of enforcing tobacco laws effective August 28, 2001. Enforcement of the tobacco laws will significantly impact underage tobacco sales and use.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapters 311 and 312, RSMo, Rules and Regulations of the State Supervisor, and Sections 407.924 through 407.934, RSMo.

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

No

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## 6. What are the sources of the "Other " funds?

Healthy Family Trust Fund (Tobacco money)

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name - Revenue Collection

Program is found in the following core budget(s): Alcohol and Tobacco Control

## 1. What does this program do?

Excise Taxes – The Division of Liquor Control collects excise taxes on all alcoholic beverages sold in the state. The administration, audit and collection section collects approximately \$28.3 million annually from liquor, wine and beer taxes for deposit into the General Revenue Fund. The excise taxes are verified by annually performing over 12,000 desk or field audits to determine that the gallonage of alcoholic beverages reported shipped by the manufacturer or solicitors equals the gallonage of alcoholic beverages reported as being received by the wholesalers.

License Fees – The Division of Liquor Control's administration, audit and collection section also annually collects and processes \$3.9 million in license fees. (See Licensing Program for description of licensing process.)

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Excise taxes on spirits and wine products are mandated by Sections 311.550 and 311.554, RSMo. The excise taxes on malt liquor and nonintoxicating beer are mandated by Sections 311.520 and 312.230, RSMo.

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name - Licensing

Program is found in the following core budget(s): Alcohol and Tobacco Control

## 1. What does this program do?

The Division processes over 26,000 license applications annually, granting licenses to qualified applicants and denying them to applicants who do not meet the public safety and other requirements of the statutes and regulations, such as those ensuring the integrity of alcohol products and those restricting felons or others of bad moral character from participation in the liquor industry. The liquor control laws and the state's system of alcoholic beverage regulations are designed to ensure the public health and safety as affected by intoxicating liquor and nonintoxicating beer. The licensing program thereby protects the consumer from tainted alcoholic products and the liquor industry from infiltration and exploitation by the criminal element. The Division performed 3,960 inspections of licensed premises assuring licensees met requirements for licensing and were educated on applicable laws. Licensing requirements also generate substantial revenue (approximately \$3.9 million annually) for the State in the form of license fees and protect the public by ensuring state control over any entity participating in the liquor industry.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 311.610.4 and 312.120, RSMo

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

No

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name - Price Posting

Program is found in the following core budget(s): Alcohol and Tobacco Control

## 1. What does this program do?

This law requires licensed Missouri wholesalers to file posting schedules of all brands of intoxicating liquor in excess of five percent alcohol by weight for sale to licensed retailers with the Division of Alcohol and Tobacco Control each month to become effective on the first day of the following month. The Auditing Section is responsible for overseeing the proper enforcement of the Missouri price posting law. This includes registering the product, appointment of Primary American Source of Supply, assigning a brand number with a permission to ship letter issued to the supplier who forwards this letter to wholesalers that distribute the product, and filing of initial prices and price changes by the licensed Missouri wholesalers. At the present time eighty-five licensed liquor wholesalers file price schedules on over thirty-one thousand different liquor and wine items for sale in this state, which is maintained on a complex computerized system that resides on the Highway Patrol's mainframe computer. Missouri's Price Posting law was enacted to prevent wholesalers from discriminating between retailers in the price of intoxicating liquor with an alcoholic content in excess of five percent alcohol by weight.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Mandated by Sections 311.332 through 311.338, RSMo. Requires licensed wholesalers to file price-posting schedules of all brands of intoxicating liquor for sale to licensed retailers with the Division each month. Wholesalers must sell at prices posted with the Division of Alcohol and Tobacco Control. The Division has authority to administratively discipline those wholesalers not in compliance.

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

No

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name - Price Posting

Program is found in the following core budget(s): Alcohol and Tobacco Control

6. What are the sources of the "Other " funds?

None

7a. Provide an effectiveness measure.

The price posting on the net is more effective because all employees at a wholesaler's location may review posted prices on the net. Previously, only one copy of microfiche was mailed to a wholesaler and all employees of the wholesaler had to share the microfiche pricing information.

	Actual 2003	Actual 2004	Actual 2005	Projected 2006	Projected 2007	Projected 2008
Alcohol Product Registrations	6,232	7,450	7,257	8,570	8,570	8,570
Primary Source Applications	1,968	2,071	2,120	2,175	2,175	2,175
Price Posting Transactions	188,219	175,918	225,617	230,000	240,000	250,000

Savings are estimated to be around \$8,000 to \$10,000 annually from posting on the net, as opposed to microfiche. Savings are a result of eliminating printing of microfiche (85 versions twice a month), postage savings related to eliminating mailing the microfiche twice a month to 85 wholesalers, and it saves approximately 4 hours per month for Division employees.

Percentage of Division's Price Posting expenditures to the total Division expenditures: 3.33%

Percentage of Division's Price Posting FTE to total FTE: 4.20%

7c. Provide the number of clients/individuals served, if applicable.

85 licensed wholesalers price post with the Division.

13,000 retail licensees benefit from price posting, i.e., without price posting wholesalers could discriminate in pricing to retailers.

7d. Provide a customer satisfaction measure, if available.

Wholesalers are pleased with:

- A. the timeliness of price posting information on the net;
- B. All employees having access to the price posting information;
- C. Not having to use a microfiche reader; and
- D. The easier use of computer format for sorting and scanning of price posting information.

Therefore, customer satisfaction has been greatly enhanced in this area.

## PROGRAM DESCRIPTION

**Department of Public Safety**

**Program Name: Administrative Disciplinary Section**

**Program is found in the following core budget(s): Alcohol and Tobacco Control**

**1. What does this program do?**

The liquor control laws and the state's system of alcoholic beverage regulations are designed to ensure the public health and safety as affected by intoxicating liquor and nonintoxicating beer. The Division is authorized by statute to take disciplinary action against any licensee who violates any provision of Chapters 311 or 312, RSMo, or any regulation relating to intoxicating liquor or nonintoxicating beer. These chapters and regulations prohibit, for example, sales of alcohol or nonintoxicating beer to minors or to intoxicated persons, lewd activity or illegal gambling on licensed premises, and sales or possession of controlled substances on licensed premises. The statutory provisions allows warnings, suspensions, revocations, probation or fines for violations of liquor statutes or regulations, thereby helping to ensure conduct of licensees in the liquor business in accordance with public safety requirements.

In addition, the division is authorized by statute to inspect stores and tobacco outlets for compliance with all laws related to access of tobacco products to minors and to take disciplinary measures against those in violation.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Percentage of Division's Administrative Disciplinary expenditures to the total Division expenditures:	4.70%
Percentage of Division's Administrative Disciplinary FTE to total FTE:	2.06%

## 7c. Provide the number of clients/individuals served, if applicable.

Citizens of the State of Missouri benefit from enforcement of laws that take action against violators of Missouri Liquor Control and youth access to tobacco laws.

## 7d. Provide a customer satisfaction measure, if available.

The customer satisfaction has not been statistically measured, however many routinely voice complaints at the distance they must travel to attend a hearing. This is a result of the Division losing three District offices in FY'04 and because of FY'04 core reductions.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name: Administration

Program is found in the following core budget(s): Alcohol and Tobacco Control

## 1. What does this program do?

Support Organization - Provides administrative, technical and managerial support to assist in the administrative and enforcement of Missouri's liquor control and youth access to tobacco laws. Included in this area are education, budgeting, financial, purchasing, personnel/payroll support, fleet management and legislative duties.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Division of Alcohol and Tobacco Control is mandated to enforce Chapters 311 and 312, RSMo, Rules and Regulations of the State Supervisor, and Sections 407.924 through 407.934, RSMo. In order to effectively and efficiently enforce and administer these laws, an administration section must co-exist to provide administrative support in the budgetary, financial, personnel/payroll areas.

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

No

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

<b>2. CORE DESCRIPTION</b>									
<p>Pursuant to Section 311.240.4 RSMo, application for renewal of licenses must be filed on or before May 1st of each year. Thus, the Division uses the refund allotment to refund license fees that were paid in advance and not used due to various reasons such as sale of the business. The Division must refund businesses that have paid in advance for a license not used. This insures compliance with Regulation 11 CSR 70-2.150(5), which addresses refunds on permits.</p>

**NOTES:**

Unexpended funds in FY04 were a result of positions held vacant due to withholdings, then late release of funds. Unexpended in FY05 due to employee turnover and difficulty in filling positions for Boiler and Elevator Programs. Spending growth from FY04 to FY05 is reflective of a one-time Boiler and Pressure Vessel Safety computer upgrade.

# FLEXIBILITY REQUEST FORM

000555

<b>BUDGET UNIT NUMBER: 83010C</b>	<b>DEPARTMENT: Public Safety</b>
<b>BUDGET UNIT NAME: Fire Safety</b>	<b>DIVISION: Fire Safety</b>

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Response to changing situations is sometimes difficult when we have to manage within fixed budgets that have not experienced real growth in several years. In addition, with the level of core reductions, budgets are tight and flexibility is needed to continue providing the best possible service to the citizens of Missouri. In order to meet the statutory requirements of Chapters 316, 320, 650, and 701, the Division of Fire Safety responsibilities include investigating fires and explosions in Missouri; fireworks permitting, and shooter training and licensing; the licensing of private fire investigators; conducting fire safety inspections in facilities licensed by Mental Health, Family Services, and Health and Senior Services; boiler and pressure vessel safety inspections; training and certification of fire service, EMS and law enforcement personnel; amusement ride permitting, safety inspections, and accident investigations; elevator safety inspections; and oversight of the Division's budget and program planning and policies. The requested flexibility would assist to ensure that the most efficient and effective services are provided.

## Department of Public Safety / Fire Safety

### Program Name: Fire Investigation Program

### Program is found in the following core budget(s): Fire Safety Core

#### 1. What does this program do?

The Investigation Unit provides fire and explosive related investigative services to Missouri's fire services and law enforcement agencies. A Deputy Chief supervises sixteen field Fire Investigators and two supervisors, each located strategically throughout the state and on call twenty-four hours a day, seven days a week. Under RSMo. 320.230, the State Fire Marshal and his appointed investigators are responsible for investigating incidents involving the possibility of arson, explosion, or related offenses as requested by the fire service, law enforcement and prosecuting attorneys within the state.

Investigators with the Division of Fire Safety have an excess of 750 hours of training including POST certification, Division of Fire Safety State Fire Investigator Certification, National Fire Academy training and various Federal Law Enforcement Academy training. Investigators are trained in several fields of expertise to include insurance fraud, explosive recognition, weapons of mass destruction, and post-blast investigations. Investigators also have advanced training in Clandestine Drug Lab Investigations.

Fire Investigators have the power of arrest for criminal offenses, when investigating the cause, origin or circumstances of fires, explosions, or like occurrences involving the possibility of arson or related offenses. Investigators also have arrest powers when aiding and assisting the sheriff of any county or the Chief of Police of any municipality or their designated representative at their request. The Investigation Unit has five certified Computer Voice Stress Analysis (CVSA) operators who also assist Federal, State, local government when requested. Additionally, Investigators are assigned special details when activated for Homeland Security or Statewide Mutual Aid occurrences.

#### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

RSMo. 320.230

#### 3. Are there federal matching requirements? If yes, please explain.

No

#### 4. Is this a federally mandated program? If yes, please explain.

No

#### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

**Department of Public Safety / Fire Safety****Program Name: Fireworks Licensing****Program is found in the following core budget(s): Fire Safety****1. What does this program do?**

The Division of Fire Safety is charged with enforcing RSMo 320.106, the investigation, permitting, and inspection of the fireworks industry in the State of Missouri. This statute requires prospective manufacturers, distributors, jobbers, wholesalers, seasonal retailers, and persons requesting special fireworks displays to apply to the Division of Fire Safety for a permit to do business in Missouri. Applicants must meet certain requirements, follow safety procedures, and pay a fee for a fireworks license. The scope of this program was broadened during the 2004 legislative session by the passage of SB1196. This bill adds to the Division's duties the testing and licensing of those individuals who shoot fireworks for public display. Additionally, proximate (indoor) fireworks shows such as used in theatres, ballgames, and concerts were previously exempt from the law and therefore left unregulated. These types of shows are now regulated due to this bill. This program has historically generated approximately \$100,000 for general revenue. Due to changes in the legislation, the program will generate approximately \$150,000 annually which will be deposited to the credit of the Fire Education Fund (0821). The Division has never received FTE or expense and equipment support, to administer this program since its implementation in the 1980's,

Fire Inspection and Fire Investigation staff conduct periodic inspections of facilities selling, manufacturing, or distributing fireworks. The Division concentrates on the enforcement of the manufacturing and sale of illegal fireworks. Investigators and Inspectors are trained in the identification of illegal fireworks and explosives as well as the proper procedure of handling. Additionally, they are trained in the proper safety procedures for the inspection of locations relating to the discharge of special fireworks displays for public viewing.

## PROGRAM DESCRIPTION

Department of Public Safety

Program Name: Private Fire Investigator

Program is found in the following core budget(s): Fire Safety

## 1. What does this program do?

In the 2004 legislation session, House Bill 1195 was passed creating the Licensed Private Fire Investigator program. This newly created program will allow for better oversight of individuals performing fire investigations for a fee in the State of Missouri. Currently, these individuals are not licensed, nor are their credentials verified. This legislation will allow the Division of Fire Safety, and the new Board of Licensed Private Fire Investigators, the authorization to license these individuals after evaluating their qualifications for private fire investigator. It will also allow for the ongoing monitoring of their performance to ensure ethical work practices, the investigation of any violations that may arise from their practice, and the implementation of any necessary measures against these individuals or organizations. The Division of Fire Safety is also charged with developing and promulgating rules to govern this program with the direction and approval from the Board. Due to the vacancy of the Board, it is anticipated this process will not begin until mid-FY06 fiscal year. Fees from the biennial licenses will be deposited into general revenue.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

RSMo. 324.930 - 324-965

## PROGRAM DESCRIPTION

Department: Public Safety / Fire Safety

Program Name: Fire Safety Inspection

Program is found in the following core budget(s): Fire Safety Core

**1. What does this program do?**

The Fire Safety Inspection Unit conducts fire safety inspections of facilities/locations licensed or certified by several state agencies to include Department of Health, Department of Mental Health, Division of Family Services, and Senior Citizens Nutrition Centers. These inspections, based upon nationally recognized code standards are designed to reduce/eliminate fire safety hazards for occupants, to include childcare providers/facilities, facilities/homes providing care for the mentally ill/challenged, foster care providers and facilities housing at risk youth. Federal laws, such as the Welfare Reform Act and Missouri's Early Childhood Education Fund have provided financial incentives for childcare providers, therefore increasing the number of homes/facilities providing this type of care. Fire safety inspections enhance fire prevention measures, therefore, making a safer environment for occupants. The Inspection Unit, also provides courtesy fire inspections for county jails, schools and state owned buildings, but have been forced to reduce the number due to budget constraints. Budget shortfalls have also eliminated fire safety education programs.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

RSMo. 320.202 & RSMo. 210.252

**3. Are there federal matching requirements? If yes, please explain.**

## PROGRAM DESCRIPTION

**Department: Public Safety / Fire Safety****Program Name: Fire Safety Inspection****Program is found in the following core budget(s): Fire Safety Core****7b. Provide an efficiency measure.**

Due to budgetary restraints, Division Inspectors have been instructed to utilize a "Compliance Letter" for minor noncompliance issues rather than returning for a reinspection. Division staff leave the letter with the provider, who then completes, signs the letter and mails to the Division after corrective action has been taken. Upon receipt, the inspection is approved and filed with the Department of Health. Also, Division Inspectors have reformatted their work and travel schedules based on facility locality.

**7c. Provide the number of clients/individuals served, if applicable.**

The Fire Safety Inspection program conducted over 11,700 inspections in FY05, touching more than 163,000 children, and countless elderly, all of whom are our state's most vulnerable citizens.

**7d. Provide a customer satisfaction measure, if available.**

Department - Public Safety - Division of Fire Safety

Program Name - National Fire Incident Reporting System (NFIRS)

Program is found in the following core budget(s): Fire Safety Core

**1. What does this program do?**

Because RSMo 320.202.2 requires that the State of Missouri have a fire incident reporting system, the Division of Fire Safety is a participant in the National Fire Incident Reporting System (NFIRS). The United States Fire Administration (USFA) created the National Fire Incident Reporting System (NFIRS), an all-incident reporting system, which has data collection and reporting capabilities that can be used at the fire department, state and national levels. After the publication of America Burning in 1972, the United States Fire Administration was created to evaluate the Nation's fire trends and problems. This system allows fire departments to record their responses and submit statistics, via the internet to the National Fire Information Council. Fire Departments from around the state voluntarily submit their fire incident data to the Division of Fire Safety for analysis and reporting purposes. At this time, Missouri has 906 fire departments registered in the State. Currently, 691 departments are submitting data, with nearly 294,000 incidents in the system. In order to qualify for the federal Assistance to Firefighter Grants Program, fire departments must participate in the NFIRS system. Federal and State agencies use NFIRS data and statistics for planning and prevention purposes.

## PROGRAM DESCRIPTION

**Department:** Public Safety/Fire Safety

**Program Name** Boiler and Pressure Vessel Unit

**Program is found in the following core budget(s):** Fire Safety

**1. What does this program do?**

The Boiler and Pressure Vessel Inspection Program strives to ensure the safety of the general public while in office buildings, churches, schools, day care centers, and commercial businesses. The Division of Fire Safety continues to provide inspections for boilers and pressure vessels to protect life and property. Based on information in the Missouri Business Directory, we estimate there to be approximately 60,000 objects that have never been registered or inspected in Missouri. In addition to the four state inspectors, the Division of Fire Safety commissions insurance company inspectors who provide routine inspections to their insured. Also, two state inspectors conduct Joint Reviews on repair companies of boilers and pressure vessels to ensure compliance of jurisdictional repairs. In an effort to improve efficiency, the Division is using one-time FY05 funds to improve software thereby increasing the turn around time for inspection reports, and generating additional fees annually. Functions of this program are overseen by the Governor-appointed Boiler and Pressure Vessel Safety Board. Fees collected for operating certificates are deposited in the Boiler and Pressure Vessel Safety Fund and swept biennially to GR.

## 1. What does this program do?

The elevator safety program is responsible for enforcing nationally recognized safety standards for the maintenance, inspection, testing and operation of all elevator equipment. New elevator equipment installations, as well as modifications/alterations to existing equipment, are required to comply with a plan review process based upon nationally recognized standards through the Division and a permit issued before such work begins. This program also has regulatory authority over the issuance of state licenses to qualified elevator inspectors performing inspections within the State. Periodic quality control reviews are conducted by Division staff to ensure licensed inspectors are performing thorough and adequate inspections per state law and regulations. The program is charged with enforcing safety rules and regulations, the collection of prescribed fees, the registration and permitting of all elevator equipment and for processing and issuance of variance requests to elevator equipment. Division staff also conduct required annual training for state licensed elevator inspectors. Functions of this program are overseen by the Governor-appointed Elevator Safety Board. Fees collected are deposited into the Elevator Safety Fund (0257) and swept biennially.

**Program Name - Training and Certification Program**

**Program is found in the following core budget(s): Division of Fire Safety**

### 1. What does this program do?

The Division of Fire Safety - Training and Certification Unit furnishes quality training and internationally accepted certification to fire fighters, law enforcement personnel, emergency response professionals, Local Emergency Planning Committees, and other state agencies. This unit is also responsible for Fire Fighter Training Contracts, the State Fire Mutual Aid System and Fire Department Registration. The Training and Certification Unit has been accredited through the International Fire Service Accreditation Congress (IFSAC) which requires certifying entities to follow strict guidelines and meet the most current NFPA standard. This allows Missouri's fire service to be recognized for their training worldwide and insures consistency when fire fighters respond to an emergency incident. Many fire departments around the state require certification prior to hiring and promoting individuals. The Division currently offers 15 levels of certification and numerous training programs and has issued over 42,000 certifications since the program's implementation.

There are approximately 906 fire departments and 25,000 fire fighters serving Missouri's citizens. Of those, we estimate that 80% are volunteers that have limited, if any, resources for life saving training. The Division of Fire Safety, Training and Certification Unit, plays a vital role in providing these services.

## PROGRAM DESCRIPTION

Department Public Safety/Fire Safety

Program Name Amusement Ride Safety

Program is found in the following core budget(s): Fire Safety

## 1. What does this program do?

Legislation in 1997 created the Amusement Ride Safety Act with the Division of Fire Safety designated to administer the program. Because no FTE or E&E authority was granted, the Division has absorbed the duties of the program by cross-training Elevator Safety Inspectors. The Governor-appointed Amusement Ride Safety Board advises Division staff. Amendments were added in 2000 and 2004. Before any amusement ride can operate in the State of Missouri, the ride shall be inspected annually by a state-approved ride inspector. Applications for the state permit and inspection report are reviewed by Division staff prior to issuing a state operating permit. The accounting process relating to fee collections is also administered by Division staff. Additionally, any amusement ride accident, meeting specific criteria, is required to be investigated by a qualified inspector with oversight from the Division.

HB1403 passed during the 2004 legislative session thereby giving the Division the authorization to perform quality control/spot inspections on rides permitted by the Division. The legislation also expanded the definition of "amusement ride" to include climbing walls, trams, bungee jumps and dry slides. If life safety issues are noted during a spot safety inspection, these issues shall be required to be addressed and a safety inspection required by Division staff. These changes will allow for increased public safety. Additionally, due to legislative changes, funds generated from this program are now deposited into the Elevator Safety Fund which is swept biennially to GR.

<b>3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.</b>									
<p>The Division is requesting funding to replace 21 vehicles in FY07. During the recent lean budget years the Division has lost financial support for our vehicle replacement program through core cuts and withholdings. Therefore, the Division is requesting a one-time appropriation of \$303,084 to replace aging, high-mileage vehicles. All of these vehicles would be assigned to field staff throughout the state as they perform their enforcement duties. The Division began FY06 with a fleet of 47 vehicles. In January, 24 were operating with over 105,000 miles, the Office of Administration's mileage recommended for replacement. We project an additional 7 vehicles to exceed 100,000 by the end of this current fiscal year. As of January, the average fleet vehicle had over 99,400 miles.</p> <p>In previous fiscal years we have been able to replace a few high mileage vehicles with used Highway Patrol or surplus vehicles. However, sources at the Highway Patrol indicate the availability will be limited. Mid-sized vehicles typically used for our Inspection staff will not be available in the next fiscal year, and full-sized vehicles utilized by the Investigative staff are extremely difficult to obtain. Additionally, these used vehicles already have over 50,000 miles, typically need new tires, and come without warranties.</p> <p>Also, the lack of a vehicle replacement program undoubtedly causes an increase in maintenance costs. The Division of Fire Safety has seen a steady increase in maintenance costs as the vehicles age. In FY05 the Division spent nearly \$27,000, a 15% increase since FY03. Already, in the first six months of FY06 the Division incurred over \$21,300 in major repair costs.</p>

<p>Of course, however, our major concern is the safety of our employees. Nearly 70% of our employees are permanently assigned to the field and essentially work out of their vehicles while conducting various safety inspections and responding to fire and explosive investigations, and bomb threats across the state. Our investigation staff is on call 24 hours a day, seven days a week and are routinely called to remote areas where roadside assistance may be few and far between or unavailable during the middle of the night. Should the Division be unable to provide staff with safe and reliable transportation, we will be forced to reimburse employees for mileage on personal vehicles which would be all the more costly. The Division of Fire Safety administration strongly feels as though we are jeopardizing employee safety by not providing them with dependable transportation, as well as putting the citizens of Missouri at risk on the roadways.</p>

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Division of Fire Safety is requesting funding to expand the Fire Inspection and Prevention Program, including one Fire Safety Inspector FTE, supporting Expense and Equipment funding and federal spending authority. The Fire Safety Inspection Program conducts fire safety inspections of facilities/locations licensed or certified by several state agencies to include Department of Health, Department of Mental Health, Division of Family Services, and Senior Citizens Nutrition Centers. These inspections, based upon nationally recognized standards, are designed to reduce/eliminate fire safety hazards for occupants, to include childcare providers/facilities, facilities/homes providing care for the mentally ill/challenged, foster care providers and facilities housing at risk youth. Federal laws, such as the Welfare Reform Act and Missouri's Early Childhood Education Fund have provided financial incentives for childcare providers, therefore increasing the number of homes/facilities providing this type of care. Although the Fire Inspection and Prevention Program is essential to the Division's core mission, it's efforts are futile without the necessary financial support. Fire safety inspections enhance fire prevention measures, therefore, making a safer environment for occupants.

**NEW DECISION ITEM**  
**RANK:** 13 **OF** 38

<b>Department of Public Safety</b>	<b>Budget Unit 83010C</b>
<b>Division of Fire Safety</b>	
<b>DI Name: Fire Safety Inspection &amp; Prevention Program</b>	<b>DI#1812153</b>
<p>The Fire Safety Inspection Program also provides courtesy fire inspections for county jails, schools and state owned buildings, but have been forced to reduce their frequency due to budget constraints. Courtesy inspections are typically requested in facilities of public assembly and often identify life threatening hazards. Nationally in 2004 over 13,000 fires occurred in places of public assembly, and another 7,000 within educational institutions. Although the Division is not mandated to provide inspection services in these types of facilities, this service is clearly essential to ensuring public safety. Increased funding is needed in order to ensure the continuance of this service to our citizens.</p> <p>Budget shortfalls have also eliminated essential fire safety education programs. Presently, there is no statewide coordination of public fire education efforts in Missouri, even though national data shows that a strong public fire education program saves lives. The requested funding would provide support for such important programs as the nationally recognized Learn Not to Burn program, Campus Safety Month (September), Fire Prevention Month (October), the Change Your Clock Change Your Battery Campaign, EDITH (Exit Drills in the Home), Remembering When for Senior Citizens and many more. The federal spending authority within this request allows the Division to apply for various grants including purchasing 9 Hazard House models which give participants a visual of the dangers in their residence. Also, another federal grant process allows for the purchase of 5000 combination fire and carbon dioxide detectors that would be given to low income and elderly citizens to provide increased protection from fire and life safety hazards in their homes. A coordinated effort would be implemented to reach those most vulnerable to the threat of fire - the young and the elderly. One of our most important commitments is to give people the knowledge and skills they need to lead safer lives.</p>	
<p><b>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</b></p>	
<p>The funding requested would allow for one full time Fire Safety Inspector to develop, implement, and coordinate Public Fire Education programs throughout the state. This individual would be strategically located to provide optimal benefit to the entire state, while also handling a fire inspection caseload of approximately 900 facilities within a specified region. The additional FTE would return workloads to a manageable level for all Fire Safety Inspection staff, while allowing for the continuance of courtesy inspections.</p>

<b>7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:</b>		
The Fire Safety Inspection program touches many of our state's most vulnerable citizens, the young and the elderly. The Division believes in educating these focus groups in order to provide them with the valuable resources they need to maintain their safety and well-being. At the same time, the Division would make strides in meeting the strategic goal of being the premier provider of fire and life safety. The Division of Fire Safety would utilize this funding to teach people of all ages how to make responsible choices regarding fire and life safety.

## 2. CORE DESCRIPTION

This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, local emergency planning committees and other state agencies upon request. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little to no budget for training. Cumulatively these funds provide training to approximately 5,000 responders annually, and, in many cases, is the only training they receive throughout the year. The intent is to provide emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens of Missouri.

These training programs, from the most basic firefighter course to the very complex technical rescue course, represent the most fundamental and integral part of emergency services within the state. Without funding for these programs, the health and safety of firefighters and emergency responders around the state will be directly effected, as well as the countless citizens who may lose lives and/or property because the firefighters were denied the necessary training to perform efficiently at their time of need.

To charge for training programs is possible; however, to do so would significantly decrease their effectiveness by reducing their exposure to the target audiences. With the significant withholdings and core cuts of the past few fiscal years, the Division has been forced to focus remaining monies to fund basic fire fighter courses and therefore eliminate many important advanced and technical programs. The result will be a sharp decline in readiness, safety, and professionalism of our emergency services.

Reverted includes Governor's standard 3 percent reserve (when applicable) and any extraordinary withholdings.

**NOTES:** Chemical Emergency Preparedness Fund (CEPF - 0587) - Appropriation is based on 10% of fees collected by the Missouri Emergency Response Commission. Until FY05, the Appropriation was based on the cap amount which can be collected (\$142,237); however, the Division typically only received between \$60,000 - \$70,000 annually. Thus showing a large dollar of unexpended. The appropriation cap for CEPF is now set at \$100,000, although amount received is near \$70,000. Growth for FY06 is due to the Fire Education Fund (0821) appropriation which is now based on fees collected from the Fireworks Licensing program. Appropriation is based on \$150,000E annually.

## PROGRAM DESCRIPTION

**Department - Public Safety - Division of Fire Safety**

**Program Name - Contracted Fire Fighter Training**

**Program is found in the following core budget(s): Fire Fighter Training Core**

**1. What does this program do?**

Through contract, this funding provides cost free training to fire fighters, law enforcement personnel, emergency response personnel, Local Emergency Planning Committees and other state agencies. In an effort to reach all spectrums of those we serve, the training ranges from very basic to extremely complex. Courses are delivered in a regional format and include topics such as fire fighting, basic to advanced fire service management, technical rescue and life saving techniques, basic and advanced arson awareness and detection, hazardous materials recognition and response, and fire safety inspections.

For many volunteer fire departments and individuals, this funding provides their only opportunity for training. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little to no budget for training. This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, local emergency planning committees and other state agencies upon request. When full funding was in place these funds provided training to approximately 7,000 responders annually, and, in many cases, was the only training they received. The intent was to provide emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens of Missouri.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

RSMo Chapter 320, 200-273; 292.604; House Bill 230 (1985)

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

## PROGRAM DESCRIPTION

Department Department of Public Safety

Program Name Services to Veterans

Program is found in the following core budget(s): Administration and Service to Veterans

## 1. What does this program do?

The Service to Veterans (STV) program provides assistance to veterans and their families to receive benefits entitled to them by the federal Department of Veterans Affairs. The STV program is dedicated to facilitating a proper and effective partnership with the federal Department of Veterans Affairs, other governmental agencies, and veterans' service organizations. The Veterans Benefits Awareness Program began in August, 2002. The purpose of the program is to reach out to Missouri veterans who may have earned benefits but are not receiving those benefits. In order to increase awareness of these federal benefits, the Veterans Benefits Awareness Program is hosting supermarkets for veterans benefits in various locations in Missouri. The Missouri Veterans Commission has also established a toll free number for veterans to call regarding benefits.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 42, RSMo.

## 3. Are there federal matching requirements? If yes, please explain.

No.

## 4. Is this a federally mandated program? If yes, please explain.

No.

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

Department	Department of Public Safety
Program Name	Services to Veterans
Program is found in the following core budget(s): Administration and Service to Veterans	
7c. Provide the number of clients/individuals served, if applicable.	
In FY 2004, 4,971 new clients were added.	
7d. Provide a customer satisfaction measure, if available.	
Based on survey results from supermarkets of veterans benefits held in calendar year 2004 and 2005, 99% of the veterans responding to the survey rated the services and information they received at the supermarket as being useful to them.	

## PROGRAM DESCRIPTION

Department Department of Public Safety  
 Program Name Missouri Veterans Cemeteries  
 Program is found in the following core budget(s): Administration and Service to Veterans  
 Core

## 1. What does this program do?

This program provides interment services to veterans and eligible dependents in a dignified, efficient and compassionate manner.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 42, RSMo  
 38 CFR Part 39

## 3. Are there federal matching requirements? If yes, please explain.

The federal construction grants for the Springfield and Higginsville cemeteries required a 50% match. The construction grants for the Bloomfield and Jacksonville cemeteries were 100% federally funded.

## 4. Is this a federally mandated program? If yes, please explain.

Because the four Missouri Veterans Cemeteries were constructed with federal grant funding from the Department of Veterans Affairs, the cemeteries are required to be maintained and operated in accordance with the operational standards and measures of the National Cemetery Administration.

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Survey results were compiled in August, 2004 and June, 2005. Families of veterans buried in the cemeteries were surveyed to determine their satisfaction with the cemetery grounds, headstones, burial sites, facilities and cemetery staff. The following satisfaction scale was used:

4=Excellent

3=Good

2=Fair

1=Poor

The survey scores were as follows:

August, 2004 3.92

June, 2005 3.88

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.
<p>The Service to Veterans (STV) program provides assistance to veterans and their families to receive benefits entitled to them by the federal Department of Veterans Affairs. The STV program is dedicated to facilitating a proper and effective partnership with the federal Department of Veterans Affairs, other governmental agencies, and veterans' service organizations. The Veterans Benefits Awareness Program began in August, 2002. The purpose of the program is to reach out to Missouri veterans who may have earned benefits but are not receiving those benefits. In order to increase awareness of these federal benefits, the Veterans Benefits Awareness Program is hosting supermarkets for veterans benefits in various locations in Missouri. The Missouri Veterans Commission has also established a toll free number for veterans to call regarding benefits. These outreach efforts have increased the workload of the Veterans Service Officers. The workload will continue to increase with the return of veterans from Iraq and Afghanistan.</p>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)
<p>Veterans Service Officers are needed in the St. Louis and Kansas City metropolitan areas. Service officers are also needed in the southwest and southeast (Fort Leonard Wood) regions. 40% of Missouri's veteran population are located in St. Louis City, St. Louis County and Jackson County. Over 100,000 veterans live in St. Louis, with only 2 Veterans Service Officers employed by MVC, and Missouri has 66,000 veterans living in Kansas City and only one Veterans Service Officer. One clerical FTE would also be needed to assist the Veterans Service Officers.</p>

BUDGET UNIT NAME: Veterans Homes	DIVISION: Missouri Veterans Commission

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

25% PS and E&E flexibility is requested for the Veterans' Homes Program. Section 105.935, RSMo, requires the payment of overtime. PS and E&E flexibility could allow the homes to pay overtime to employees without requiring layoffs or reducing the occupancy rate. This flexibility could also be used to pay for contract services to temporarily fill vacant positions (for example, nurses, physicians, dieticians and security). The amounts included below were based on the FY 2007 core; however, the actual request would be based on the total FY 2007 appropriation.

## PROGRAM DESCRIPTION

Department Department of Public Safety

Program Name Homes Program

Program is found in the following core budget(s):

## 1. What does this program do?

The seven Missouri Veterans Homes provide skilled nursing home care for Missouri's veterans.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 42, RSMo.  
38 CFR Parts 17 et al.

## 3. Are there federal matching requirements? If yes, please explain.

The federal Department of Veterans Affairs pays a per diem for nursing home care provided to an eligible veteran. In order for the Missouri Veterans Homes to receive the maximum VA per diem, the homes' cost of care must be twice the VA per diem.

## 4. Is this a federally mandated program? If yes, please explain.

The homes operate under a signed legal agreement with the federal Department of Veterans Affairs. In accepting federal Department of Veterans Affairs (VA) veterans' homes construction funding, the state is obligated to operate the seven Missouri Veterans' Homes as veterans' homes for a minimum of twenty years. The VA grants are for 65% of the total construction cost of the veterans' homes. If the State of Missouri ceases to operate the veterans' homes for care for veterans, the State of Missouri would be required to pay the VA 65% of the current value of the veterans' home, not to exceed the VA grant award.

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## PROGRAM DESCRIPTION

<p>The MVC contracts with the federal Department of Veterans Affairs (VA) for pharmaceuticals in the veterans homes. The VA estimates the FY 2007 contract to increase 12%. This would increase rate from \$415.24 to \$465.07 per resident per month, which is a monthly increase per resident of \$49.83. 1,350 beds X \$49.83 per month X 12 months = \$807,246.</p> <p>From fiscal year 2004 to 2005 the homes experienced inflation rates of 13.78% for utilities, 16.45% for medical supplies, and 17.73% for food. The inflation rates from FY 2004 to FY 2005 were used to estimate the increases from FY 2006 to FY 2007.</p>

**1. What does this program do?**

The Commission monitors gaming related activities to ensure that criminal elements do not infiltrate licensed charitable and commercial gaming and optimizes its social and economic impact on the state. Key responsibilities include conducting background and financial investigations on all key persons of gaming operations; screening occupational licensees to ensure personnel operating casino and charitable gaming operations maintain the integrity of Missouri gaming; monitoring casino operations at all times to ensure that gaming is conducted in accordance with the Missouri gaming statutes, rules and regulations of the commission and the licensee's own internal controls; conducting financial and compliance audits of gaming operations. In addition, the Missouri-bred horses statute intends to encourage and award the owners and breeders of Missouri-bred horses that win horse races in this state. Racing entities have been reimbursed for a Missouri-bred horse winning purse from the Missouri Breeders Fund.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

State: Gaming: RSMO 313.004, 313.800-313.850; Bingo: 313.005-313.085; Horse Racing: 313.500-313.720

**3. Are there federal matching requirements? If yes, please explain.**

No.

**4. Is this a federally mandated program? If yes, please explain.**

No.

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

## 2. CORE DESCRIPTION

Fringe Benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS & MCHCP. Because of this, state contributions for these fringe benefits are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health and life insurance, retirement and long-term disability, workers compensation, and the Employee Assistance Program.

### 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Fringe benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS & MCHCP. Because of this, contributions for these fringe benefits are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health, dental and life insurance, retirement and long-term disability, workers compensation, and the Employee Assistance Program.

State contributions for retirement to the Highway Retirement System have increased based on the actuarial figures provided by the system. Also, state contributions for health insurance have increased due to rising insurance costs. This request is to increase fringe benefit contributions on behalf of MSHP employees assigned to the Gaming Commission.

## 2. CORE DESCRIPTION

Horse racing activities were transferred to the Missouri Gaming Commission in 1996. Since that time, the Missouri Breeders Fund has been used to reimburse racing entities for a Missouri-bred horse winning purse. To date, the Commission has made payments to the Missouri State Fair and the Clark County Fair.

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

PS and/or EE Flexibility will allow the OTAG to make operational adjustments due to fluctuation in the cost of providing services in support of MONG activities, these changes can be caused by inflation, state revenue receipts, withholdings and other factors impacting operations. Flexibility allow managers to manage resources and will reduce the need for supplemental budget requests.

**2. Estimate how much flexibility will be used for the budget year.** How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
N/A	\$ 265,637 GR or less as dictated by program operational needs.	\$265,637 GR or less as dictated by program operational needs.

**3. Was flexibility approved in the Prior Year Budget or the Current Year Budget?** If so, how was the flexibility used during those years?

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY05, However flexibility was used - FY 04. FY04 flexibility allowed OTAG to shift excess PS funding generated from agency imposed hiring freeze to support critical EE items that had gone unfunded in recent years due to core cuts and withholdings. Key support areas included computer replacement, custodial supplies, building and grounds equipment and complex maintenance.	\$265,637 PS and/or EE GR flexibility was approved for FY 2006. Flexibility will be applied where most effective to ensure mission and critical program activities are supported.

## PROGRAM DESCRIPTION

**Department:** Department of Public Safety

**Program Name:** Office of the Adjutant General / Missouri National Guard

**Program is found in the following core budget(s):** Administration

<b>GR</b>	<b>\$1,328,185</b>
<b>Federal</b>	<b>\$44,283</b>
<b>Other</b>	<b>\$44,703</b>
<b>Total</b>	<b>\$1,417,171</b>

**1. What does this program do?**

The Missouri National Guard, Office of the Adjutant General, Administration Program operates the Adjutant Generals Office, the headquarters of the Missouri National Guard Training Site, a 350 acre complex comprised of 440,000 square feet of buildings, 8 miles east of Jefferson City. This program provides state funding necessary to support military operations of the Adjutant General's Office, the Headquarters of the Missouri National Guard, and the Missouri National Guard Museum. Funding ensures that federal and state standards for training, readiness and strength are maintained to enable the Guard to perform its state and federal missions when called to duty.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Article III, Section 46, Constitution of Missouri establishes the responsibility of the Legislature to maintain an adequate militia. The Missouri Military Code is established in Chapter 41, RSMo, identifies the Missouri National Guard as the state's militia and the Governor as the Commander in Chief of the militia, the Adjutant General as the Chief of staff to the Governor and administrative head as of the military establishment, defines missions of the Guard/militia

**3. Are there federal matching requirements? If yes, please explain.**

Yes, found in the OTAG Contract Appropriation

**4. Is this a federally mandated program? If yes, please explain.**

NO

## 2. CORE DESCRIPTION

House Bill 1519 and 1165 established the **Missouri National Trust Fund**, RSMo 41.214, in FY 98, \$2,000. The statute authorizes monies deposited to be used by the Office of the Adjutant General (Missouri National Guard) for purposes pursuant to sections 41.010 to 41.100 in support of the State Military Department and section 173.239, RSMo - the National Guard Tuition Assistance Program.

The National Guard **Tuition Assistance Program** \$2,762,400 PSD, supports also core funding for the 5 year educational assistance plan for MONG members authorized in RSMo 173.239. The Missouri National Guard is currently manned at 94.1% as of July 04 apposed to 102% in July 01 authorized strength. Maintenance of Missouri's authorized guard strength level is critical to retain NGB unit and related federal funding authorizations. If Missouri is unable to maintain its authorized strength; troop authorizations will be withdrawn and allotted to states demonstrating the ability to maintain strength. Missouri will lose the federal resources and dollars supporting those units and also the emergency response capability associated with them.

Funding to perform **Military Veteran Honor Detail Program** \$2,240,441 is authorized in RSMo 41.958. This law gave the OTAG/MONG the Mission of providing military honor services to deceased veterans. It is estimated that 570,000 veterans currently reside in Missouri. The department of Veterans Affairs demographic statistics project that 13,000 to 14,000 veteran deaths will occur in Missouri each year through 2016. The appropriation helps ensure that any deceased military veterans receive proper military honors (Burial services) to which they are entitled based on their patriotic service to our nation and state.

# FLEXIBILITY REQUEST FORM

000753

BUDGET UNIT NUMBER: 8122070	DEPARTMENT: Public Safety
BUDGET UNIT NAME: National Guard Trust Fund Core (Military Honor Request/ Tuition Assistance)	DIVISION: Office of the Adjutant General

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

National Guard Trust Program Fund # 0900 ("PS and/or EE 20% flexibility) will allow program managers to support Veteran Military Honor (funeral details) and the NG member Tuition Assistance Programs in an efficient and economical manner. When Veterans organization are available to provide funeral services they do so at a lesser cost than full and part-time OTAG and NG teams. Due to the fluctuation of the location, time, and number of funerals to be conducted on a daily basis (7days a week, 365 days a year) veteran organizations are not always available. When this occurs, the Program Manager must use personal service (PS) monies opposed to contract services E/E monies. This "and/or" flexibility will help ensure that Veteran Honor services are provided economically and efficiently. The 20% flexibility is also necessary to support the NG Tuition Assistance program. Due to the large number of military activations it is difficult to project the number of soldiers that will take advantage of this program. Flexibility will allow existing appropriations to be reprogramed to meet program needs should there be a lack of spending authority and as a result not delay student tuition payments.

**1. What does this program do?**

The Missouri National Guard **Tuition Assistance Program** provides Missouri National Guard members seeking undergraduate degrees as a full time student a maximum of 10 semesters to receive up to the maximum tuition assistance authorized is 50% of the tuition of the school attended. Missouri national Guard must maintain an adequate military force (State Militia) to meet the readiness requirements of its federal/state mission. The state must also be pro-active in its support of the National Guard to insure programs and benefits are maintained and established to ensure the Guard maintains its strength posture. Strength maintenance is imperative if Missouri is to remain competitive with our surrounding states. Arkansas, Illinois, Kansas and Nebraska currently have effective tuition assistance programs in place.

# FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 85432	DEPARTMENT: Public Safety <span style="float: right;">000772</span>
BUDGET UNIT NAME: Missouri Veteran Recognition Program	DIVISION: Office of the Adjutant General

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

"And/Or" flexibility is requested for the Missouri Military Veteran Recognition Program. This program provides medallions, medals and certificates of recognition to Missouri's World War II and Korean War Veterans and their survivors. Flexibility improves program efficiency and will preclude administrative delays, due to lack of spending authority should program operations exceed P/S or E/E expenditure limits. This program is funded 100% from the Veterans Capital Improvement Trust Fund #304

**1. What does this program do?**

This Program supports the National Guard armory and facility minor maintenance and repair projects (\$25,000 or less). The type of projects to be included in this program are defined as projects that are routine and/or systematic work which preserves the useful life of property or equipment; preventive in nature; repair of items or elements necessary to prevent service interruptions and minor alterations. The state capital improvements budget includes capital items exceeding the established \$25,000 threshold. All repair projects costing less than the threshold must be included with the agency's operational budget. This program allows the Office of the Adjutant General/Missouri National Guard to accomplish the required repairs to National Guard facilities spread over 64 communities and helps to ensure that state and federal real property managed by the Missouri National Guard is adequately maintained. Failure to provide for adequate repairs will result in increased repair and/or replacement costs of facilities, endanger the safety of the fulltime work force using the facilities, and are detrimental to recruiting and retention of a professional workforce, thus resulting in reduced strength and less federal assistance.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Article III, Section 46, Constitution of Missouri establishes the responsibility of the Legislature to maintain an adequate militia. Chapter 41, RSMo. Identified the Missouri national Guard as the state's militia and defines missions.

**3. Are there federal matching requirements? If yes, please explain.**

NO

<b>2. CORE DESCRIPTION</b>									
<p>The OTAG/MONG Field Program supports the operational and maintenance of Missouri National Guard armories and associated grounds. The MONG operates 62 armories; the average age of these facilities is in excess of 36 years with over 50% being over 40 years of age. These military facilities are state-owned and require recurring funding support for armory operations, utilities, maintenance, and replacement of ground maintenance and custodial equipment. Program is critical to ensure members of the Missouri National Guard have adequate facilities in which to train, store and maintain associated military equipment.</p>

# FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: Field Support Federal Funds	DEPARTMENT: Public Safety
BUDGET UNIT NAME: AG Field Support	DIVISION: Office of the Adjutant General

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Estimated "E" spending is requested for the \$600,000 Federal Expense and Equipment funding appropriated to the office of the Adjutant Generals Field Support Program. Many National Guard armories qualify for 50% federal reimbursement of National Guard Armory utility expenditures. The Office of the Adjutant General operates 62 armories across the state. In years of excessive energy cost and/or adverse weather the \$600,000 fixed 50% federal appropriation amount likely will not be adequate to reimburse the state for the actual cost of utilities. The Estimated appropriation designation will ensure that the state is adequately and timely reimbursed for the federal share of armory utility expenditures.

## 1. What does this program do?

The Field Support program supports the operation and maintenance of 62 National Guard armories spread across Missouri. Adequate state support is necessary to ensure that equipment and personnel housed in these facilities are ready to perform their state and federal mission when called upon. Federal funds are not available to support the operation and maintenance of state owned National Guard armories. Field Core program funding provides operational and maintenance support (i.e., cleaning supplies; facility maintenance for plumbing, heating, electrical maintenance; grounds keeping; trash service; janitorial service; etc.) and for fuel and utilities for Missouri National Guard units, facilities and land valued in millions of dollars.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Office of the adjutant General and the Missouri National Guard is organized under the State Constitution in accordance with directives promulgated by the federal military department, pursuant to section 41.010, RSMo 94. Section 46 of Article III of the Missouri Constitution established the responsibility of the legislature to maintain an adequate militia.

## 3. Are there federal matching requirements? If yes, please explain.

Yes, found in Contract Service Appropriation

## 4. Is this a federally mandated program? If yes, please explain.

NO

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

This request outlines the additional startup and operating expenditures necessary upon occupancy of the new Dexter and Pierce City National Guard armories and the Chillicothe armory expansion. The new Dexter armory represents a increase of approximately 9,662 sq. ft.. and 6.5 acres over the existing armory constructed in 1941. The new Pierce City armory replaces the armory destroyed by the tornado, it represents a 1,000 sq. ft.. and 4.9 acre increase. The Chillicothe armory expansion is a 7,000 sq. ft. addition to the armory constructed in 1940. These larger armories represent increased needs for custodial supplies, modern janitorial equipment, utilities and grounds maintenance supplies and equipment.

In the spring of 2006 the Missouri Army National Guard will move into two new replacement armories in Dexter and Pierce City and in July 2006 will occupy a 7,000 sq. ft. addition at the Chillicothe armory. These new armories replace a 20,338 sq. ft. armory that was originally constructed in 1941 and a 28,965 sq. ft. armory that was constructed in 1939 that are obsolete and not economically feasible to operate and maintain. Costs requested in this item are for increased cost to be incurred by the OTAG for operation of these multi-use armories for twelve months beginning July 2006 (FY 07).

## PROGRAM DESCRIPTION

**Department:** Department of Public Safety

**Program Name:** Office of the Adjutant General / Missouri National Guard

**Program is found in the following core budget(s):** Armory Rental Fund

GR

Federal

Other \$25,000 E

Total \$25,000 E

**1. What does this program do?**

This core program allows armory rental fees collected by the Guard to be utilized to pay armory utility and operating expenses which are increased as a result of nonmilitary armory usage. Approval also ensures that state monies appropriated to The Office of the Adjutant General to support Missouri Military Forces Programs are utilized for that purpose and not used to subsidize nonmilitary activities.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

RSMo 41.210 authorizes the Adjutant General to rent National Guard armories to the public and utilize those funds to support the Missouri National Guard.

**3. Are there federal matching requirements? If yes, please explain.**

NO

**4. Is this a federally mandated program? If yes, please explain.**

NO

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other " funds?**

## PROGRAM DESCRIPTION

**Department:** Department of Public Safety

**Program Name:** Office of the Adjutant General

**Program is found in the following core budget(s):** Missouri Military Family Relief Program

**1. What does this program do?**

The Missouri Military Family Relief Program was created in 2005 by HB 437. This new law authorizes the Adjutant General to make, subject to appropriations and the amount of donations received, grants to families of persons who are members of the Missouri National Guard or Missouri residents who are members of the Reserves of the Armed Forces of the United States who are in financial need. To qualify Guard members and Reservists must have been called to active duty as a result of the terrorist attacks on September 11, 2001.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Missouri Revised Statute - RSMo 41.216 through 41.218 authorized the Missouri Military Family Relief Program

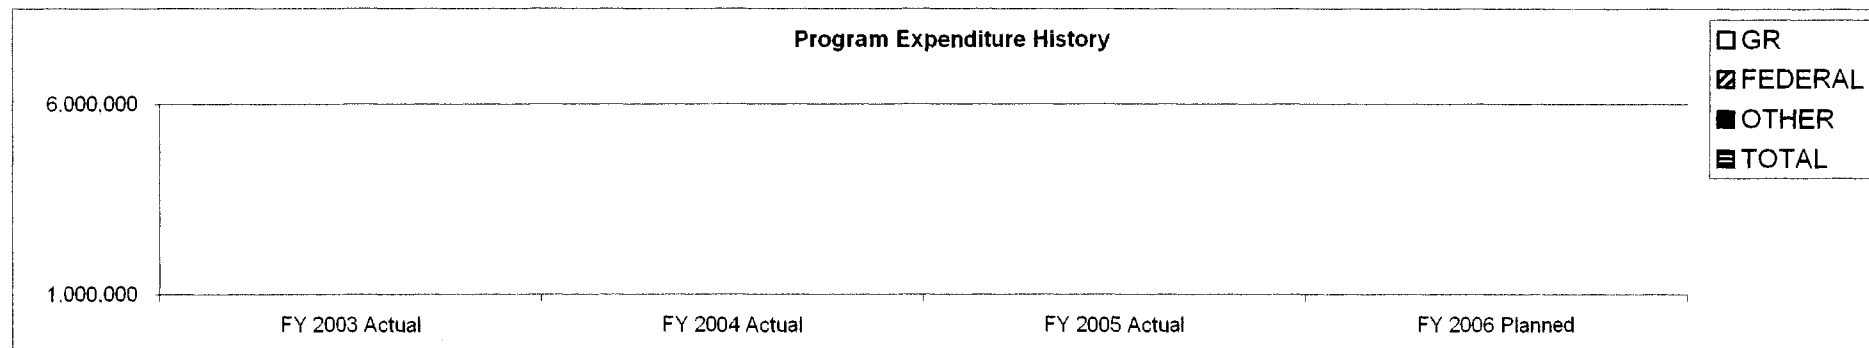

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other " funds?**

Missouri Military Family Relief Fund # 0719 - Donations and contributions received from citizens and corporations and State income tax refund check-off.

## 2. CORE DESCRIPTION

The Missouri National Guard operates several training sites across Missouri including the Algoa site, which houses the Office of the Adjutant General, and SEMA, which is located 9 miles east of Jefferson City. Approximately 400 FTE work at the Algoa and Camp Clark training sites where military, student and public employee training is conducted. This Core Revolving fund request allows the OTAG to charge for services (i.e.: cafeteria, billeting, site usage, etc.) provided at the training sites and to retain moneys collected in the Training Site Fund as an offset to the cost of service.

## PROGRAM DESCRIPTION

Department: Department of Public Safety		
Program Name: Office of the Adjutant General / Missouri National Guard		
Program is found in the following core budget(s): Training Site Fund		
GR		
Federal		
Other	\$244,800	National Guard Training Site Fund #0269
Total	\$244,800	

**1. What does this program do?**

The Office of the Adjutant General and Headquarters, Missouri National Guard is located on a remote location 8 miles east of Jefferson City. Due to its remote location, the Training Site Revolving Fund is necessary to provide for billeting, food service requirements, and recreational activities, not only for the full-time workforce of the Missouri National Guard, but also for the students which attend courses of instructions at the Training Site. The selection of the Missouri National Guard as a "National Schoolhouse for Computer/Information Management and Training Center of Excellence," has necessitated the need for expanded soldier support, facilities and activities. This program allows the Missouri National Guard to provide an efficient and economic environment for employees and students at the Skelton Training Site to work and help attract national federal programs to the STS and benefit Missouri and the Missouri National Guard.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Article III, Section 46, Constitution of Missouri establishes the responsibility of the Legislature to maintain an adequate militia. Chapter 41, RSMo, identifies the Missouri National Guard as the state's militia and defines missions.

**3. Are there federal matching requirements? If yes, please explain.**

NO

**4. Is this a federally mandated program? If yes, please explain.**

NO

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

## 2. CORE DESCRIPTION

The Office of the Adjutant General Contract Service Core Program, through funding agreements with the federal government, provides funding necessary for the operation of Army and Air National Guard facilities and activities to include military training, equipment maintenance, telecommunications, automated target ranges, facility security, fire protection, store front recruiting, etc. the various federal/state agreements included in this program are supported with 75% and 100% federal funding. The general revenue portion included in this decision item requests funding required for the 25% state general revenue match necessary to support Missouri's share of the cost of these agreements.

The fiscal year 2007 Contract Service Program core request will support the salaries of 332.33 current FTE (Note: although these employees are classified as state employees, only 17.08 of these FTE are paid from state general revenue funds with the wages and benefits for 314.33 FTE paid from federal funds and .92 FTE paid from the MONG Training Site Fund.

The fiscal year 2007 Contract Services core program will support expense and equipment requirements to support the operation of the Missouri National Guard in the amount of \$473,549 National Guard Trust matching funds and \$6,980,020 "E" federal funds.

## 3. PROGRAM LISTING (list programs included in this core funding)

# FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 8122070	DEPARTMENT: Public Safety	000834
BUDGET UNIT NAME: Contract Service Core Request	DIVISION: Office of the Adjutant General	

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

"Estimated" Federal spending authority is requested for contract services program and for expense and equipment and "and/or" flexibility is requested for the PS and EE federal funding in the contract service program. The OTAG/MONG operates numerous federal/state agreements within the Contract Service program (CS). Federal agreements included in this appropriation operate on a 12-month FY ending 30 September. 100% federal funds (without state match) for these agreements are made available at the end of the federal fiscal year July, August, and September. Additional monies are used to fund personal service (one-time / part-time) FTE, operational, maintenance projects and other program support projects. The estimated "E" spending authority for E/E items and the "and/or" 5% flexibility designation requested for this account, will allow the OTAG to accept federal funds when available. Without estimated appropriation and "and/or" spending authority, federal end of year funds would be lost to Missouri and made available to other states having the ability to promptly execute end of the year federal funding.

\$136,259 Federal EE Estimated federal expense and equipment flexibility was used to support the 75% and 100% federal fund match for MONG federal-state agreements. Operational funding flexibility supported Air and Army MONG, training, logistical and maintenance activities. \$136,259 Federal fund EE flexibility used	<b>\$6,950,020 E plus \$2,050,000 Expense and Equipment and \$841,626 PS and/or EE spending authority</b>	<b>\$6,950,020 E plus \$2,050,000 Expense and Equipment request and \$841,626 PS and/or EE (5% flexibility) spending authority request.</b>

**3. Was flexibility approved in the Prior Year Budget or the Current Year Budget?** If so, how was the flexibility used during those years?

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
\$550,000 flexibility (in addition to the \$6,900,000 "E") was approved for 2005 with \$136,259	Additional "Estimated" spending and "And/or" flexibility is needed due to anticipated federal support for program facilities, security enhancements, inflationary increases, and personal service adjustments. It is anticipated for FY 2006 that \$2,050,000 (federal) in additional E/E spending authority and \$841,626 "and/or" 5% flexibility will be required to support federal state agreement (grant programs). These extra monies will not require additional state GR matching funds.

## PROGRAM DESCRIPTION

000843

**Department: Department of Public Safety**

**Program Name: Office of the Adjutant General**

**Program is found in the following core budget(s): Contract Services**

<b>GR</b>	<b>\$507,734</b>	
<b>Federal</b>	<b>\$ 17,520,429</b>	
<b>Other</b>	<b>\$490,799</b>	
<b>Total</b>	<b>\$ 18,518,962</b>	<b>333.43</b>

### 1. What does this program do?

The Office of the Adjutant General Contract Service program, through funding agreements with the federal government, provides funding necessary for the operation of Army and Air National Guard facilities and activities to include military training, equipment maintenance, telecommunications, automated target ranges, facility security and fire protection. The various federal/state agreements included in this program are supported with 75%, 85% and 100% federal funding. The general revenue portion included in this program requests funding required for the 25% state general revenue match necessary to support Missouri's share of the cost of these agreements. Adequate state funds to support cooperative general agreements are necessary to ensure that personnel and equipment assigned to the Missouri National Guard are ready to perform their federal and state missions when called upon. A failure to adequately support these agreements could impact unit readiness and ultimately result in the loss of programs and federal dollars coming into Missouri.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Article III, Section 46, Constitution of Missouri establishes the responsibility of the Legislature to maintain an adequate militia. Chapter 41 RSMo, identifies the Missouri National Guard as the state's militia and defines duties and missions of the Adjutant General.

### 3. Are there federal matching requirements? If yes, please explain.

Air National Guard base operations and maintenance agreement 75% Federal / 25% State GR match, Army National Guard Communication Agreement 85% Federal / 15% State GR, 100% Federal Agreement Army National Guard Operations and Maintenance, Training Site AVCRAD Shop, Army National Guard Security, Air National Guard Security, Air National Guard Firefighters, National Guard Bureau Tech Training School of Excellence.

### 4. Is this a federally mandated program? If yes, please explain.

Activities are critical to the existence of the Missouri Army and Air National Guard. Agreements ensure military equipment, facilities and personnel are mission ready.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Air National Guard Bureau in Washington D.C. has just advised that effective 1 January 2006, 60 existing federally funded Air National Guard Base Security personnel will be converted from Active Guard military positions to State employee positions. This conversion will impact 30 security personnel at Rosecrans ANG Base in St. Joseph and 30 positions at the Lambert IAP, St. Louis. New State positions will be 100% federally funded to include fringe benefits and will not be converted to State GR FTE at some future date.

Positions are necessary to ensure that the federal governments investment in expensive federal aircraft and flying facilities is protected from terrorist threats and remain available for National Defense and State emergency operations.

New Security personnel to be hired to work at Rosecrans and Lambert ANG Bases will provide resource protection. Security Officer positions will be funded using 100% federal monies advance deposited in the State Treasury. Federal reimbursement will include payment for all associated employee fringe benefits. Salaries established are based on Missouri State Personnel Board Uniform Classification System. It is anticipated this program will begin in January 2006. 60 Military Security Officer I Positions.

2. CORE DESCRIPTION									
<p>This agency is responsible for developing a statewide emergency capability that will minimize casualties and property damage caused by natural or manmade disasters, including Homeland Security while at the same time maximizing the use of available resources. When a disaster occurs on a large enough scale that it exceeds the recovery capability of local and state resources, this office assists the Governor in compiling information necessary to initiate a request for Federal disaster relief funds. When a disaster is declared by the President, this office administers the funds provided for relief purposes, and also functions as the liaison between other state agencies, affected local subdivisions and the federal government. Other duties include the year round administration and dispersal of federal funds to local governments for emergency management activities as well as an ongoing training program for local government officials. This agency is also responsible for assisting local governments in developing local emergency operations plans that will increase their capability to provide for the protection of their population from the aforementioned disasters. As confirmed by a hazard vulnerability analysis, Missouri has a long and varied history of disasters. Thus, a potential exists for repeat of the same type of catastrophe. The possibility also exists that an unknown type of disaster could occur that would threaten life and property in the state. Natural disasters (i.e., tornadoes, floods, winter storms, and earthquakes) have happened before and will happen again. The agency is also responsible for administration of the National Flood Insurance Program within the State of Missouri. Missouri's large and diversified industrial base, coupled with its central location and superior transportation system, creates another type of problem. On any given day, shipments of various types of hazardous materials are in transit, stored, or being used at various locations throughout the state, putting Missourians at risk for Hazardous Materials/chemical spill emergencies. The agency is also responsible for the 911 Advisory Board and Seismic Safety Commission.</p>

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 85450C	<b>DEPARTMENT:</b> Public Safety
<b>BUDGET UNIT NAME:</b> A G SEMA	<b>DIVISION:</b> SEMA

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Because of the nature of our agency, Response and Recovery of Natural and Other Disasters, it is sometimes difficult when we have to manage within fixed budgets that have not experienced real growth in several years. In addition, with the level of core reductions, budgets are tight and flexibility is needed to continue providing the best possible assistance to the citizens of Missouri.

Flexibility ensures that the requirements outlined in statute are carried out. With continued reductions in staff, fewer people are available to complete required tasks. Flex funding between PS and E&E allow PS funds to be utilized to contract with individuals to ensure appropriate completion of required duties.

DEPARTMENT REQUEST					GOVERNOR RECOMMENDATION				
SEMA is requesting 15% flexibility based on total GR funding for FY 2006. The information below shows a 15% calculation of both the PS and E&E FY 2006 budgets. ## PROGRAM DESCRIPTION

**Department:** Public Safety/State Emergency Management Agency

**Program Name:** Emergency Management Performance Grant

**Program is found in the following core budget(s):** Operating and Grants

**1. What does this program do?**

These grant funds are used to pay the administrative costs of the State Emergency Management Agency. This grant is a federal reimbursement grant shared 50% state/50% federal funds. In addition, this grant also funds 50% of the administrative costs of 88 political subdivisions that participate in the program. The agency is responsible for developing a statewide emergency capability to plan for and to prepare for all types of disasters and emergencies. The activities of the agency are all-hazard planning, training, exercises, and mitigation.

**Emergency Management Planning:** All-hazard planning is the backbone of all disaster response, both at the state and local levels. Planning involves assisting local governments in developing local emergency operations plans that will increase their capability to provide for the protection of their population from disasters. This program is called the Integrated Emergency Management System and consists of the conduct of hazard vulnerability analysis, capability assessment and multi-year development plans.

**Training and Exercises:** SEMA has a training program to conduct comprehensive emergency management education and training programs for state and local officials, disaster relief organizations, and the private sector. These funds are used for instructor, student, and other related costs. The exercise program is designed to assist communities in the improvement of local preparedness programs by conducting exercise design courses, exercise and scenario development, evaluation, and critique. Exercises are conducted for all functions and all types of hazards.

**Emergency Management Performance Grant (EMPG) for State and Local Assistance:** Federal Emergency Management Agency (FEMA) EMPG funds for state and local governments' has assisted many local communities in their disaster preparedness efforts over the years. This program includes the year round administration and dispersal of federal funds to local governments for emergency management activities as well as an ongoing training program for local government officials.

**Area Coordinator Program:** There are four areas of the state where full-time in-resident SEMA Area Coordinators have been funded and appointed: St. Louis, Kansas City, Cape Girardeau, and Springfield. The Area Coordinators who work out of the SEMA headquarters in Jefferson City cover the remainder of the state.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 44, RSMo, CFR 44, Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended; Stafford Act, Title VI, Sections 611 and 613, Public Law 93-288, as amended, 42 U.S.C. 5195, et seq. and Executive Order 79-19 SEOP

**3. Are there federal matching requirements? If yes, please explain.**

Yes. This is a grant program that requires a 50% general revenue and 50% federal fund match.

## PROGRAM DESCRIPTION

## PROGRAM DESCRIPTION

**Department:** Public Safety/State Emergency Management Agency**Program Name:** Homeland Security/DOJ**Program is found in the following core budget(s):** Operating and Grants**1. What does this program do?**

The Homeland Security Grant Program provides federal grant funding to improve the capabilities of the State and Local Governments to detect, deter, respond, and recover from acts of terrorism that includes a Weapon of Mass Destruction (WMD) incident. The Homeland Security Grant Program is administered, at the federal level, through the Department of Homeland Security by the Office of Domestic Preparedness (ODP). The grants are administered at the state level by the State Administering Agency (SAA), the State Emergency Management Agency (SEMA) has been designated by the governor to fulfill that role. The SAA, at the direction of the Missouri Security Council, insures the four critical missions of the state are included in the funding strategy for each grant cycle. Those four areas are: Health and Well-Being, Transportation Security, Capabilities of the Emergency Responders and the Protection of Critical Infrastructure and Assets. The funds will be allocated primarily in four distinct categories: Planning, Training, Equipment and Exercises.

Since the first authorization to the states in FY-1999, with spending authority delayed until February 2002, the State of Missouri has aggressively executed the grant program. The initial program was designed to build capability at the state level and organize 28 Homeland Security Response Team (HSRTs). Ninety-five percent of the state's population resides within a 50-mile radius of an HSRT. In 2003, DHS/ODP established the Urban Area Security Initiative (UASI) to include funding directed at the 50 largest metropolitan areas. The state of Missouri has two UASI areas, St. Louis and Kansas City. The UASI areas include the entire metropolitan area including contiguous counties and mutual aid partners.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Public Law 108.090

**3. Are there federal matching requirements? If yes, please explain.**

No.

**4. Is this a federally mandated program? If yes, please explain.**

Department Public Safety/ State Emergency Management Agency  
 Program Name Presidential Disaster Declarations  
 Program is found in the following core budget(s): SEMA/GRANTS and Operating

## 1. What does this program do?

SEMA is responsible for administration of this fund authorized under Public Law 93-288. This program authorizes assistance to individuals under the Individuals and Households Program, and Public Assistance. Before this program can be implemented, the President, invoking Public Law 93-288, must declare a major disaster. The 411 Section of the law is optional, and must be requested by the Governor. SEMA has been assigned to administer the receipts and disbursements of this program not related to the regular budget responsibilities.

The Individuals and Households Program, Section 411, Public Law 93-288 as amended by Public Law 106-390 provides funds to grant amounts not to exceed \$25,600 to individuals and families that have suffered losses caused by a disaster which are neither insured nor covered under some other assistance program. The state provides 25% of the funds and the Federal Emergency Management Agency provides 75%. These grants may be used for the repair or replacement of housing, purchase of furniture, home cleaning, clothing, medical expenses, etc. The Individuals and Households program requires an audit of a 5% random sample of grant recipients to determine if the grants are being spent in accordance with established federal and state guidelines. Additionally, the State provides liaison and advocacy for applicants. The staff coordinates with FEMA regarding program administration and programmatic decisions regarding applicant eligibility.

The Public Assistance program aids political subdivisions, i.e., counties, cities, towns, levee districts, and similar entities in repairing or restoring disaster damages to publicly owned facilities such as buildings, roads, and bridges. Grants are made to the political subdivisions in the amount of 75% from the federal government with the state and its political subdivisions providing 25%. Program staff are responsible for damage assessment, program administration, oversight of applicant performance, project inspections, and liaison between the applicant, State, and Federal agencies.

The Hazard Mitigation Grant Program, authorized under Section 404 and 406, Public Law 93-288 as amended by Public Law 106-390 provides funds to eligible applicants and sub-applicants to implement cost-effective mitigation measures that substantially reduce the risk of future damage, hardship, loss, or suffering in any area affected by a major disaster. The federal grants normally contribute up to 75 percent of the cost of hazard mitigation measures, with the state and/or eligible sub-applicants normally providing the 25 percent non-federal share.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 44, RSMo, Public Law 93-288, CFR 44.

## 3. Are there federal matching requirements? If yes, please explain.

Yes 75% federal share and 25% general revenue for Individual Household program, 15% local match for public assistance and 10% general revenue, and not more than 25% general revenue for mitigation program.

## 4. Is this a federally mandated program? If yes, please explain.

No.

**Department:** Public Safety/State Emergency Management Agency

**Program Name:** Floodplain management Program

**Program is found in the following core budget(s):** Operating and Grants

## 1. What does this program do?

Provides technical assistance to individual communities in order to promote floodplain management practices consistent with National Flood Insurance Program (NFIP). In Missouri approximately 580 jurisdictions identified as special flood hazard areas participate in the NFIP. More than 100 jurisdictions do not. Currently only 9% of the insurable structures located in the special flood hazard area have National Flood Insurance. In accordance with the National Flood Insurance Reform Act of 1994, residents of communities and counties not participating in the NFIP will not be eligible to receive federal disaster assistance following a presidential declaration. This program is intended to help communities develop a model floodplain management program and to increase awareness to buy flood insurance. Financial assistance is provided at a 75% federal and 25% share to reduce the short and long-term adverse impacts from flood events.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

CFR 44; Public Law 93-288, Chapter 44 RSMo; Executive Order 97-09

## 3. Are there federal matching requirements? If yes, please explain.

## 1. What does this program do?

Radiological Emergency Preparedness (REP): The Radiological Emergency Preparedness (REP) section is responsible for the off-site planning for both Nuclear Power Plants that are near Missouri citizens. The Callaway Plant in Reform, Missouri has an emergency planning zone that takes in four central Missouri counties. The agriculture (ingestion) planning zone covers all or parts of twenty-two counties. Nebraska Public Power District's Cooper Nuclear Station is opposite Rockport, Missouri (Atchison County) and has an ingestion planning zone that covers four northwestern Missouri counties. The REP section trains first responders throughout the state for radiological response and also handles the notifications for high and low level waste that is transported through our state.

## 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Nuclear Regulatory Commission (NUREG) 0654, and Environmental Protection Agency (EPA)-400-R-92-001

## 3. Are there federal matching requirements? If yes, please explain.

No

## 4. Is this a federally mandated program? If yes, please explain.

Yes. The emergency planning for the Nuclear Power Plants is required for the plants to operate. These funds are expended through our program specific distribution account.

## 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

## 6. What are the sources of the "Other " funds?

Funding for this program paid by the Callaway and Cooper Power Plants.

## PROGRAM DESCRIPTION

000894

**Department:** Public Safety/State Emergency Management Agency

**Program Name:** Callaway and Cooper Nuclear Power Plants

**Program is found in the following core budget(s):** Operating and Grants

**7a. Provide an effectiveness measure.**

The successful exercise evaluation by the Nuclear Regulatory Commission, the Environmental Protection Agency, and Federal Emergency Management Agency during the required biennial graded exercises.

**7b. Provide an efficiency measure.**

Each response organization will have it's response plan reviewed annually and updated as needed. On-going training and at least one proficiency drill or exercise will be held.

**7c. Provide the number of clients/individuals served, if applicable.**

These are the at-risk populations covered by the Callaway Nuclear Station:

Gasconade County Emergency Planning Zone (EPZ) has 173 residents residing therein  
Montgomery County EPZ has 632 residents  
Osage County EPZ has 903 residents  
Callaway County EPZ has 15,082 residents

This is the at-risk population covered by the Cooper Nuclear Station:

Atchison County has 2,451 residents and transients at risk.

**7d. Provide a customer satisfaction measure, if available.**

Following each graded exercise FEMA and NRC hold open public meetings for feedback from residents in and around both nuclear power plants.

Annual public meetings are held each January to review power plant performance (NRC) and off-site emergency planning issues.

The Federal Emergency Management Agency passed a Law requiring all state and Local Government to develop State Hazard Mitigation Plans and update them every 3 years to be eligible to receive all of the Disaster Assistance available under a Presidential Disaster Declaration. The State of Missouri has been approved for a 25% State and 75% Federal grant to contract the service. The Grant also includes plans for four counties in Missouri with the local counties paying the 25% local share. We will contract this service.

The State All-Hazards Plan update and the 4 multi- jurisdictional local mitigation plans will be prepared according to FEMA's planning guidance to meet FEMA's approval. Preparing the update to FEMA requirements will require several hundred contracted man-hours for multiple hazard HAZUS runs, updated mapping, and the rollup and inclusion of the information from all the local mitigation plans submitted across the state. The State will contract Regional Planning Commissions to lead the planning effort of multiple communities to develop multi- jurisdictional local mitigation plans in the 4 county areas.

rollup and inclusion of the information from all the local mitigation plans submitted across the state. The State will contract Regional Planning Commissions to lead the planning effort of multiple communities to develop multi- jurisdictional local mitigation plans in the 4 county areas.

Under the Robert T. Stafford Act (§5170c/Section 404) and the Code of Federal Regulations (CFR 44, Section 206), the Federal Emergency Management Agency (FEMA) provides to the states funding under the Hazard Mitigation Grant Program (HMGP), Flood Mitigation Assistance and certain categories of Public Assistance Program. In terms of HMGP alone, Missouri has received approximately \$70,000,000 in HMGP funding equaling 15% of \$467,000,000 in disaster assistance dollars from 1993 – 2004. In addition, Congress recently authorized a new Pre-Disaster Mitigation Competitive (PDM-C) program that makes available \$150 million annually to state and local governments. These federal funds are vital to Missouri's ability to acquire flood-damaged homes, construct community tornado saferooms, develop and update mitigation plans, and repair or replace damaged roads, bridges and culverts, etc.

Scope of new FEMA requirements and new grant program funds available.

Past history of contracting for development of all hazards plans.

Ability of Missouri's local jurisdictions to compete for federal funding.

The Federal Emergency Management Agency has notified us of 25 grants worth 25 million being approved for the State of Missouri. The program specific distribution is requested to allow SEMA to contract for the closeout reports needed by the Federal Emergency Management Agency. Local communities have submitted 31 Competitive Mitigation grants this state fiscal year through our Agency to the Federal Emergency Management Agency. These mitigation grants are additional work that we process and monitor for Local governments throughout the State. In terms of the Hazard Mitigation Grant Program (HMGP) alone, Missouri received approximately \$70,000,000 in Federal funding from 1993–2005. In addition, Congress recently authorized a new Pre-Disaster Mitigation Competitive (PDM-C) program that makes available \$150 million to state and local governments each fiscal year. These federal funds are vital to Missouri's ability to acquire flood-damaged homes, construct community tornado saferooms, develop and update mitigation plans, and repair or replace damaged roads, bridges and culverts, etc.

## 2. CORE DESCRIPTION

The Missouri Emergency Response Commission (MERC) is responsible for administering the state and federal Emergency Planning and Community Right-to-Know Act (EPCRA). Industry affected by this legislation are required to report to the MERC annually to comply with state and federal laws. Fees are collected annually according to established reporting procedures. The MERC provides training to Local Emergency Planning Committees (LEPCs) and fire departments on response and mitigation of hazardous chemical accidents. The MERC assists LEPCs in the development and review of Hazardous Materials Plans and serves as a distribution point for the Federal Hazardous Materials Transportation Uniform Safety Act funds of 1990 (HMTUSA) for training and planning grants.
